**These by far are not your typical granny vase these vases are beautiful, and elegant and each piece is beautifully crafted and makes each session highly elevated with this bong! It can be used as a centerpiece on a table and can be discreet enough where curiosity looms. This woman-founded company has developed a cult-like fan base where every piece becomes a must I should know this because I want all! You can find them in most dispensaries and on their website as well.**

## **The Tronian Milatron**

**This is a cost-effective alternative compared to other portable dry herb vaporizers. Milton can reach up to 240°C in under 35 seconds without compromising your bud quality. This device comes with a 2300 mAh battery and also a USB-C cable for faster charging. This product is discreet and not bulky and doesn't run hot in your hands like its competitor. I'm looking forward to seeing this product develop and possibly expanding to other colour choices perhaps.**

**With every holiday  
consumption can be a  
cause for concern.  
Just remember to  
consume what you  
can handle and  
always remember to**
